Successful go to market

Enhance your GTM strategy with Comcast's operator insight and support.

Xfinity — A proven success story

Xfinity's mission is to unify connectivity, security, support, and control into a single seamless experience, trusted by millions as the most reliable choice in the U.S.

With Comcast Technology Solutions, worldwide operators can realize similar benefits:

Grow revenue

70% of customers are willing to pay more for advanced Wi-Fi.

Customers bundling Wi-Fi + Smart Home are significantly less likely to churn.

Improve customer experience

20% uplift in NPS — driven by ease of use and reliability.

App engagement increased 3x with features like WiFi Motion, CVR, and cameras built-in.

Lower operational costs

93% of issues are resolved directly in the Xfinity app.

Service truck rolls reduced by 34%, and inbound calls reduced by 15%.
